Hug High School Abstract 2004-05

The Hug High School GEAR UP Program for the 2004-2005 school year will provide an exciting educational opportunity for the upcoming Hug High School sophomore class. Students will be involved in a variety of activities that will prepare them for post-secondary education. Activities include: tutoring in academic subjects, training in proficiency testing, college financial planning workshop, review of course outline for college-bound students, University of Nevada Reno and Truckee Meadows Community College site visits, job shadowing experiences, school site career fair participation, cultural events, university sporting event attendance, summer college orientation activities, and *Advanced Placement Potential* for interested students. In addition, the Career Center will have eighteen computers for increased access to college and career related materials.

A major GEAR UP Program goal is to improve academic achievement. Additional efforts will be made to help students who fall below a 2.0 GPA. Credit recovery classes will also be offered to students who failed a core class. The GEAR UP program will provide financial support for summer school instruction.

The GEAR UP Coordinator will work with school staff members, community members, Truckee Meadows Community College and University of Nevada Reno faculty members to develop many more learning activities for students. Hug High School will coordinate activities, tutoring assistance, increase parent involvement, and provide other components for a well-rounded, supportive GEAR UP Program.
